SAFETY MANAGEMENT EXPERIENCE

Safety Manager **Any Town, USA** **August 2021 - Present**
ABC Company

Direct the day-to-day activities of up to six safety coordinators across multiple sites, with an emphasis on large electrical, HVAC, plumbing, and pipe-fitting projects, for one of the fastest growing, commercial construction and specialty subcontractors in Texas; train new employees and create and present innovative and engaging curriculum.

- Manage all fleet accident investigations involving company personnel and vehicles.

Safety Coordinator **Any Town, USA** **March 2017 - July 2021**
ABC Company

Instituted the municipality's first ever safety program; developed and implemented effective policies and training citywide.

- Worked in unison with the internal construction management team on city facility construction projects and provided support to the fire department's safety officers.
- Conducted site safety inspections of all city facilities; identified and corrected safety hazards and assisted with development of corrective actions to eliminate reoccurrence.
- Investigated all accidents concerning city-owned vehicles including collisions involving heavy equipment.
- Remained abreast of/current on technical and regulatory issues for employee safety and health.

SAFETY MANAGEMENT EXPERIENCE (CONTINUED)

Selected Accomplishments:

- Demonstrated record of progressive performance results and specific strengths in strategic thinking, large program development, and effectiveness in managing and overseeing complex initiatives.
- Transformed the climate and culture in terms of safety and safe operation among employees at all levels, from senior management to field employees.
- Produced an in-house dump truck operations video, as part of the fleet accident prevention program, and developed initiatives that led to the reduction of accidents involving automobiles and motorized equipment; reduced accident rates by over 50% and introduced more aggressive/effective defensive drivers training for all employees driving city vehicles, 2017 - 2021.
- Earned Prima Award (national recognition) for the city's safe trailer operations program; eliminated trailer-involved accidents (from 15 to zero) in the first year of the training program, 2017.

Senior Safety Consultant ABC Company

Any Town, USA

April 2016 - March 2017

Provided expert safety training, onsite safety staffing, accident investigations, and full safety program management and development for a leading provider of Environmental, Health, and Safety (EHS) consulting services.

- Worked with businesses to ensure compliance with all federal, state, and local laws and regulations, reduce injuries, cut environmental pollution, and prevent accidents.
- Developed various written programs and conducted a variety of trainings.

Safety Inspector VI

Any Town, USA

September 2007 - April 2016

ABC Company, Occupational Safety and Health (OSHA) Consultation Program

Established the OSHA Consultation Program (OSHCON) for commercial construction for the State of Texas, while also developing relationships with commercial construction companies in the Dallas-Fort Worth (DFW) area, for a full-service agency serving private employers by helping identify and eliminate occupational hazards in the workplace.

- Implemented and monitored corporate, regional, and OSHA safety standards for up to 250 employees at construction sites for a variety of high-profile clients.
- Conducted OSHA compliant site safety inspections for general industry, medical facilities, oil field operations, and construction sites; observed employee activities and worksite/workplace conditions to ensure compliance with safety standards and submitted remediation recommendations to ensure attainment of OSHA standards.
- Delivered OSHA training to construction and corporate safety managers.
- Consulted on compliance issues, leveraging in-depth knowledge of OSHA and regulatory requirements.

Selected Accomplishments:

- Recognized as the state's top producer responsible for the evaluation of health and safety programs to ensure compliance with OSHA requirements for commercial, residential, and highway construction sites and facilities.
- Earned an OSHA Region VI service award for service to commercial construction, 2011.
- Pioneered a state-wide construction safety training program for safety inspectors; enabled a significant expansion of construction safety inspections and dramatically improved the inspectors' knowledge of OSHA standards and their ability to identify and correct hazards to prevent injury.
